

Declaration of conformity

VIOKAR is manufacturer and supplier of products for electrical installations and in the sense of REACH a so-called downstream user. The products we supply are articles and do neither intentionally release any substances during the intended use, nor contain any SVHC (substances of very high concern). For articles there is no obligation, under REACH, to register nor to issue a safety data sheet.

Substances used to manufacture our articles are registered and the polymers are manufactured from registered monomers.
